The "Your Retirement Income: Optimize It. Protect It." workshop is intended only to educate you about financial decisions. It is broad in scope and does not consider your individual personal financial situation, which is unique. The information and advice may not be appropriate in all cases. No products will be offered for sale. Thrivent Financial for Lutherans and its representatives and employees cannot provide legal, accounting, or tax advice or services. Work with your Thrivent Financial representative, and as appropriate, your attorney and/or tax professional for additional information.

Past performance is not a guarantee of future results.

Guaranteed income stream is achieved with the purchase of Single Premium Immediate Annuities. All guarantees are based on the claims-paying ability of the issuing insurer. Mutual funds and other securities products may be recommended for growth potential and portfolio diversification. While diversification can reduce investment risk, it cannot eliminate it.

Investing in a securities product (such as a mutual fund or a variable product) involves risk, including the possible loss of principal. Prospectuses contain more complete information on the investment objectives, risks, charges and expenses of the respective products, which investors should read and consider carefully before investing. To obtain a prospectus, contact a Thrivent financial representative or visit Thrivent.com.

IMPORTANT: The projections or other information generated by the TRIO[®] analysis regarding the likelihood of various investment outcomes are hypothetical in nature, do not reflect actual investment results and are not guarantees of future results. Results in the analysis will vary with each use and over time. The TRIO[®] analysis does not favor any particular security or investment. Figures and rates of return are based on current and variable assumptions to illustrate a concept. Your results and the actual rates of return you will experience will vary. The analysis is dependent upon the quality and accuracy of data furnished by you. We assume no liability resulting from the use of the information contained in the analysis. You are solely responsible for financial decisions.
